Hi Anna,

Just wanted to let you know that last week we switched all our pork for a supply of your pigs via Weddel Swift. I had a leg roast today and couldn't believe how great it was. It sounds strange but I can feel the difference in the texture of the pork in my fingers when I am butchering it. I have some POS up in my shop and I am spreading the word about your pigs. Keep up the great work !

Kind regards

Mark Rawlinson
